

AMRIT BAKSHI

Siliguri, West Bengal | 9933552758 | amritbakshi2003@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

B.Tech Computer Science graduate (2026) with hands-on experience in data analysis, data validation, and data-driven application development using Python, SQL, and Excel. Built an end-to-end synthetic data generation platform covering data profiling, schema validation, and quality checks. Skilled at translating business requirements into structured data solutions. Seeking an entry-level Data Analyst / Business Intelligence role.

TECHNICAL SKILLS

Data & Analytics: SQL, Python (Pandas, NumPy), Advanced Excel, Power BI, Tableau, Data Cleaning, Data Wrangling, Data Validation, Data Profiling, Data Quality Management, Exploratory Data Analysis (EDA), Statistical Analysis, ETL, Business Intelligence, Dashboard Development, Data Visualization, AI-Assisted Analytics, Prompt Engineering, Synthetic Data Generation

Databases: SQL, MongoDB, PostgreSQL, SQLite, Database Design, SQL Joins & Aggregations

Development & Cloud: React.js, REST APIs, Streamlit, JavaScript, HTML5, CSS3, Git, GitHub, AWS (Hosting & Deployment)

Tools: VS Code, Figma, Canva, Cursor AI, ChatGPT, Claude

Professional: Requirement Analysis, Stakeholder Management, Data Interpretation, Data Storytelling, Critical Thinking, Cross-Functional Collaboration, Documentation, Business Problem Solving

PROJECTS

SynthSLM — Synthetic Data Generation Platform

Jan 2026 – Jun 2026

Python, Pandas, NumPy, Streamlit, SQLite, Faker

- Engineered a synthetic data generation pipeline producing statistically representative datasets from user-defined schemas, generating up to 100,000+ synthetic records in under 11 seconds
- Built an interactive Streamlit application enabling users to upload datasets, configure generation parameters, validate outputs, and export in CSV, Excel, and JSON formats
- Validated the pipeline against the FIFA World Cup 2026 Player Performance Dataset (Kaggle, 54,600 records), achieving a 94.3% overall data quality score while preserving statistical distributions and relationships from the original dataset
- Built an integrated analytics dashboard comparing original vs. synthetic datasets through statistical distribution, correlation analysis, feature importance, and outlier detection

WORK EXPERIENCE

Data Operations & Annotation Intern — Avinyx AI

Mar 2026 – May 2026

- Manually sourced and entered 200+ records daily through online research as part of data monitoring and annotation workflows, ensuring accuracy and consistency for downstream analysis
- Compiled daily data collection findings into structured presentations for internal review using Microsoft PowerPoint and Excel
- Used data visualization tools to organize and validate collected data before reporting to the team
- Supported data quality checks on annotated datasets to maintain labeling accuracy and consistency across daily submissions

Co-Founder & Operations Lead — Aerwok

Sep 2024 – Dec 2025

- Led requirement gathering, project planning, and client communication for 5 web development and UI/UX engagements — including one major client account — for startups and small businesses
- Directed a cross-functional team of 5 designers and developers, ensuring on-time delivery across all client projects
- Designed 20+ wireframes, prototypes, and visual assets in Figma and Canva, maintaining usability, accessibility, and brand consistency
- Optimized page structure and content strategy across client sites, contributing to measurable SEO and user experience gains
- Deployed and hosted a client website on AWS, gaining hands-on experience with cloud infrastructure and deployment workflows
- Leveraged AI-assisted tools (Claude, ChatGPT, Cursor) to rapidly scaffold website structures and iterate on client requirements, streamlining the overall development and delivery process

EDUCATION

B.Tech, Computer Science & Engineering — Siliguri Institute of Technology

Apr 2022 – Jun 2026

Senior Secondary (CBSE, Class XII) — 74%

Jan 2022

Secondary (CBSE, Class X) — 72%

Jan 2020

CERTIFICATIONS

- Databases for Developers: Next Level — Oracle (Jul 2026)
- Databases for Developers: Foundations — Oracle (Jul 2026)
- Data Analytics Job Simulation — Deloitte Australia via Forage (Jun 2026)
